ABOUT THE WEBINAR

New education policy 2020 paves path to the future of budding Indian minds with elaborative changes which NEP has introduced in Indian Education system. The new national education policy proves to be a boon economically, intellectually and blending in professionally for teachers with an ambitious goal to impart Quality and Competitive Education for All. APJ Abdul Kalam said that “Learning needs freedom to think and freedom to imagine and both have to be facilitated by the teacher”. Certainly, NEP 2020 empowers the teachers by giving them autonomy in selecting appropriate pedagogy and encourages them to ensure socio emotional learning of their students. Students in India have historically focused on 'preparing for exams' a system involving years of learning by rote, copious note-taking and narrow adherence to a syllabus. The New Education Policy (2020), which emphasizes problem-solving and critical thinking skills, will help the next generation of Indians finally 'prepare for life' and navigate uncertain futures.

Defense and Strategic Studies as an academic discipline is assuming significance that covers all strategic and domestic issues that affect the security and defense of the nation. It plays an integral role in maintaining peace in a region, internal security and preparedness for combat are issues that are an integral part of governance, International relations, national security, tackling terrorism and strategic planning of national and international activities. With the purpose of creating platform for academic discussion on “NEP 2020: Role of Defense Teacher” this program has been finalized so that important recommendation and suggestions can be drawn on the theme of webinar.
