National Webinar

On

Trends in Research of Library and Information Science

27th, September, 2021
11:30 A.M. to 1:30 P.M.

Organizing by
School of Information Science, Dr. B. R. Ambedkar University of Social Sciences,
Dr. Ambedkar Nagar (Mhow), Indore, (M.P.)

About the webinar:

Research is a means of continuously developing a discipline. It provides a discipline with the ability to use the knowledge generated in another discipline. Scientific methods are used in this. In other words, research means conducting a systematic investigation to establish facts and arrive at new conclusions. In the context of library and information science, in various libraries and library schools in India are being carrying out research activities on various topics of library and information science. Dr. S.R. Ranganathan, the father of library science laid the foundation of research in India with his pioneering efforts. He introduced formal education in library and information science discipline in universities. This webinar is being organized by the university to make the library and information science community aware of the current trends of research in this current time of ICT. Main objectives of the webinar are to know the current trends in research, to know about the area of research, and to determine the diversity and trends of research in library and information science field in India.
